Subject: ACTION REQUIRED: Questions from 9:00 am Call

Paula:

Who can I contact for answers to the following questions?

1. What is the status of the plume, e.g., where is it located?
2. What is the status of Lake Powell?
3. Will EPA be sampling Lake Powell? If so, what are current plans?

Rich thought maybe someone in Durango could answer these questions and/or someone in the EOC but wasn't sure who.

Thanks,

Laura Jenkins
